

CASE STUDY

Leading Healthcare Services Provider Trusts SBA Info for their Security and Compliance

The Client

Our customer is a leading healthcare provider who strives to create relevant and affordable technology as solutions to improve clinical outcomes. They empower healthcare professionals operating in rural areas to deliver better medical facilities and diagnostics while keeping things affordable. With over 200 experienced and committed teams that have a leadership board possessing 17+ years of experience, works to improve India's healthcare scenario.

Business Need

With multilocation and multidevice access requirements to support business need, our customer is driven by security needs of their highly regulated healthcare industry. Allocation of manpower to tackle the security & compliance needs was the biggest concern as there was a shortage of skilled resources. To address security threats via business applications hosted in various domains and keep up with business efficiency and compliance, our client required a centralized IT dashboard for greater visibility and easy maintenance. To address the above needs, they were looking for a trusted technology partner.

The Solution

After understanding the client's security needs, SBA Infohas suggested the best-in-class solutions with the right product mix and provided excellent on-demand support services. With strong domain experience and awareness about healthcare industry-specific compliances, we provided a cost-effective solution to address their security and compliance needs.

Following were the specifications of the given solution,

- Desktop central enterprise solution offered as SaaS Model with single technician license- managed engine
- Endpoint DLP as SaaS Model: Trend Micro's Apex 1
- Application access and outbound internet security for mobile and remote users (Prisma Access)

Results

Following were the significant benefits achieved by our client through the proposed solution mix,

- Adherence to compliance and regulations
- Better resource management
- Reduced capital expenditure (CAPEX)
